

REMINDER

for Microsoft Dynamics CRM

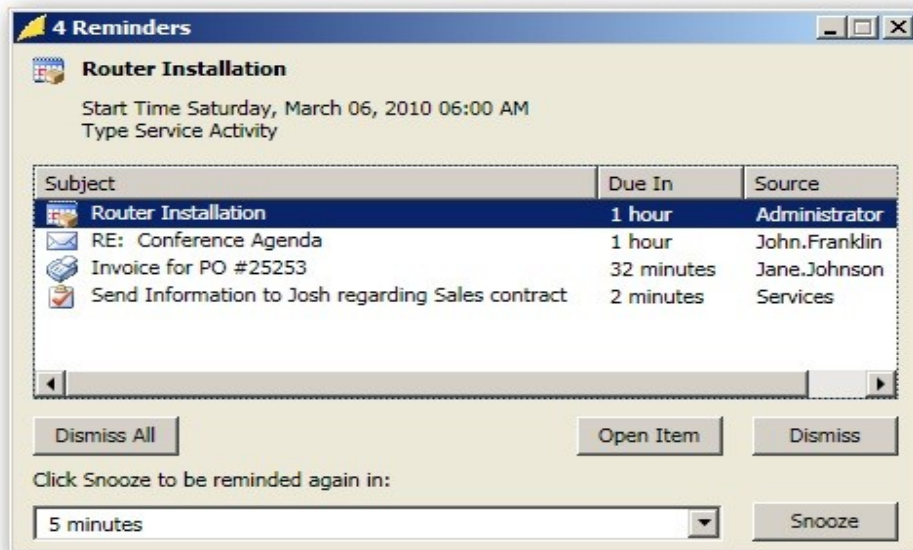

Improving Efficiency and Customer Relations in Microsoft Dynamics CRM

C360 Reminder

Never miss another activity when a co-worker is out for the day - emails, phone calls or appointments. With the c360 Reminder, you can subscribe to any queue or user to be reminded of upcoming activities. With the look and feel of Outlook reminders and no need to have CRM or Outlook running, c360 Reminder is the best way to stay on top of the day's demands.

- ⇒ Configure how long in advance to be notified of each activity type
- ⇒ Monitor all or just a subset of activities
- ⇒ Monitor any queues and/or users
- ⇒ Identify quickly who owns the activity (queue or user)
- ⇒ Set snooze for each activity, to be reminded again in a certain amount of time
